

STRENGTHEN YOUR SAFETY FOR BLOWROOM PROCESS !!!

Over and above the Fire Diversion System working in almost 2000 plus spinning mills in India and abroad Vetal's **VECOS** a need of the hour solution for minimizing the losses in the process is being accepted by safety minded customers.

VECOS is a dedicated individual Machine / Location suppression system with CO₂ / DCP automatically triggered by sensors in event of fire. Local flooding or full flooding options available.

VECOS Fire suppression system installation setup in Unimix machine

1. Fire Camera
2. Co₂ Nozzle
3. Co₂ Fire Control Panel
4. Co₂ Cylinder
